## About Woldumar

**Our Mission:**  
To educate people about the natural environment.

Woldumar is a non-profit organization offering high-quality environmental education programs. We work hard to maintain our 5 miles of trails on 178 acres of woodland, prairie and wetland habitats along the Grand River. Woldumar is funded by memberships, donations and program fees. We would not be able to operate without the generosity and support of the greater Lansing community.
